- Soil Business Area Analysis Group
- National Standard Committee

Date: July 12, 1992

To: Lester C. Brockmann,
Soil Scientist, SSQA
NSSC, SCS, Lincoln, NE

File code: 430-14-3

We received and reviewed your report. We feel this is a very good beginning to evaluating and establishing the National Standard for Soil Classification and Interpretations (NSSCI). We want to thank you for your efforts.

We concur with the general content of your report. As NASIS evolves, some functions currently handled by the s5 database will be accomplished by NASIS MUIR, included are items 3h, 3j, 3k, and 3l.

We request you to continue on with charges six and seven and begin to develop an implementation plan for the NSSCI. We would like to have an Initial Study Review by September 1, 1992.

Jim R. Fortner
