Russ Kelsea, Soil Scientist/Analyst, met with NSSC personnel (See enclosed memorandum.) on June 16-17, 1993, in Lincoln, Nebraska, to discuss "NASIS Integration Issues." It turns out that some of the controversial issues associated with National Standard do not affect the NASIS logic.

The National Leaders asked me to contact the members of the National Standard's Committee to establish a date to review Russ Kelsea's notes. September 20 or 22, 1993 are suggested dates to meet. Participants at the meeting to review Russ Kelsea's notes will be members of the National Standard's Committee and those participants at the June 16-17 meeting who wish to attend.
